

ABDUL RAFI

Software Engineer

mohdabdulrafi17@gmail.com | +91 9959088937 | LinkedIn | GitHub | LeetCode

Professional Summary:

Software Engineer with **1+ years of professional experience** designing, developing, and supporting enterprise cloud and data solutions using C#, Python, SQL Server, Microsoft Fabric, and Microsoft Azure. Experienced in building ETL/ELT pipelines, automating deployments through Azure DevOps and CI/CD, optimizing SQL queries, and troubleshooting production environments. Microsoft Certified in Azure Administration, Azure DevOps, Fabric Data Engineering, and SQL Development, with a strong foundation in cloud-native application development, software engineering, and cross-functional collaboration.

Professional Experience

- | | | |
|---|---|------------------------------|
| Software Engineer | Quadrant Technologies | Dec 2025 – Present |
| <ul style="list-style-type: none">– Worked on Microsoft Fabric to build and maintain ETL/ELT pipelines for ingesting, transforming, and loading data from multiple enterprise data sources.– Developed reusable data pipelines and transformation logic to improve data quality and deliver analytics-ready datasets for business reporting.– Supported CI/CD processes using Azure DevOps by assisting with deployment pipelines, source control, and release activities across development environments.– Optimized SQL Server queries for data validation, troubleshooting, and performance improvements across production workloads.– Worked with Microsoft Azure services including Virtual Machines, Storage Accounts, and Microsoft Entra ID while supporting cloud-based data solutions.– Monitored pipeline executions, investigated failures, identified root causes, and worked with the team to resolve production issues within agreed timelines.– Contributed to deployment activities and process improvements by collaborating with developers, DevOps engineers, and business stakeholders in an Agile environment.– Participated in the development and support of enterprise data solutions by following coding standards, documenting changes, and ensuring reliable application delivery. | | |
| Remote Intern – C# Developer | Shalsys Software Solutions Pvt. Ltd. | Jun 2025 – Oct 2025 |
| <ul style="list-style-type: none">– Contributed to the development and enhancement of Windows-based applications using C#, gaining hands-on experience with enterprise application development and object-oriented programming.– Developed and optimized SQL Server queries to support application functionality, data retrieval, and reporting requirements while ensuring query efficiency.– Worked with ASP.NET Core MVC to understand controller-based architecture, application flow, and backend development practices within a collaborative development environment.– Collaborated with team members to understand business requirements, resolve development issues, and deliver assigned tasks in a fast-paced, client-focused environment.– Assisted in debugging application issues, validating implemented features, and performing functional testing to ensure reliable and stable application behavior before deployment. | | |
| Data Science Intern | NIT Trichy | June 2024 – July 2024 |
| <ul style="list-style-type: none">– Completed an intensive internship focused on Python programming, applying data analysis techniques to extract meaningful insights from structured datasets.– Worked with Python libraries such as Pandas, NumPy, and Matplotlib to clean, analyze, and visualize data for exploratory analysis and reporting.– Assisted in developing data-driven solutions by interpreting analytical results, validating datasets, and presenting findings through clear visualizations.– Collaborated with mentors and peers on practical assignments, strengthening problem-solving, technical communication, and teamwork in a structured learning environment. | | |

Technical Skills

Programming Languages: C#, Python, SQL, Java, JavaScript

Frameworks & Web Technologies: ASP.NET Core MVC, HTML5, Restful APIs, React.js, Node.js, Express.js, Tailwind

Cloud Platforms: Microsoft Azure (Vms, Storage, Microsoft Entra ID), AWS (EC2, S3), GCP(Fundamentals)

DevOps & Tools: Azure DevOps, Git, GitHub, GitHub Actions, CI/CD, Docker, Kubernetes, Visual Studio, VS Code

Data Engineering & Analytics: Microsoft Fabric, Power BI, Data Warehousing, Data Modeling, ETL/ELT Pipelines.

Databases: SQL Server, MySQL, MongoDB

Software Engineering: SDLC, Debugging, Application Development, Problem Solving, Agile Methodologies

Education

Bachelor of Technology in Computer Science and Engineering (CSE-IoT)

June 2022 – May 2025

[Kakatiya Institute of Technology and Science, Warangal](#)

- **CGPA:** 7.73/10

- **Coursework:** IoT Systems, Database Management Systems, Object-Oriented Programming, Operating Systems, Computer Networks, Cloud Computing

Projects

Face Recognition Attendance System

[Source Code](#)

- Developed a full-stack desktop application using **Python**, **OpenCV**, and **Tkinter**.
- Implemented face detection using **Haar Cascade** and recognition using the **LBPH algorithm**.
- Designed a **CSV-based data storage system** for maintaining attendance records.
- Built an intuitive **GUI** to enable real-time face recognition and attendance marking.

Smart Irrigation System (IoT)

[Source Code](#)

- Designed an IoT-based smart irrigation system using **Arduino Uno**, moisture sensors, and relay modules.
- Automated irrigation based on real-time soil moisture levels to reduce manual intervention.
- Implemented logic to optimize water usage, contributing to **water conservation**.
- Gained hands-on experience in hardware–software integration and IoT system design.

Personal Portfolio Website

[Website](#)

- Developed a responsive portfolio website using **React.js**, **Vite**, and **Tailwind CSS** to showcase projects, certifications, and technical skills.
- Built a **CI/CD pipeline** using **GitHub Actions** to automate application build and deployment.
- Deployed the application on **Vercel** with seamless integration to GitHub for continuous deployment.
- Applied reusable component architecture, responsive design, and **Git**-based version control following modern web development practices.

Certifications

- **Microsoft Certified: DevOps Engineer Expert (AZ-400)** ([Verify](#))
- **Microsoft Certified: Azure Administrator Associate (AZ-104)** ([Verify](#))
- **Microsoft Certified:GitHub Actions (GH-200)** ([Verify](#))
- **Microsoft Certified: SQL AI Developer Associate (DP-800)** ([Verify](#))
- **Microsoft Certified: Fabric Data Engineer Associate (DP-700)** ([Verify](#))
- **Data Science Internship** – NIT Trichy
- **Cloud Computing** – AWS Educate & Google Cloud Skill Boost

Declaration

I hereby declare that the above information is true to the best of my knowledge and belief.
